V. New Business

A. Slack

B. Potential Questions

- Deliberation on what our guiding questions should be
- Debate on if current landscape and historical landscape should be in this
- No data, can lead to using qualitative data from historical context or success in other schools
- Is there similar projects to provide context
- Main question useless, but the 2 sub questions are very useful
- Adam proposes to remove first main question and make the 2 sub questions actual questions
- Maybe using climate instead or with landscape
- Instead of historical context, is this something students want
- Rephrase to breadth and depth, and the quantitative questions
- Adam states a progression for the questions
- Should require some form of quantitative amount
- Does the proposal justify the budget
- Added this as a question
- Current or past campus landscape
