Chancellor's Associate Scholars Program

CASP Unit Goals & Metrics for the 2018-2019 Academic Year - PROPOSED

Providing Department:
Chancellor's Associate Scholars Program

Responsible Roles:

Unit Goal Description:

The unit goal is specific to academic achievement and speaks to the important function of retention for Chancellor's Associates Scholars. The unit goal is achievable and will be incremental as we deepen our understanding of how to best support a rapidly increasing number of marginalized students at UCSD, and how to best support and connect students to resources that will help them achieve academic and personal success. It's worth noting that an equal amount of effort is done on assessing student's holistic success, that includes sense of belonging.

Metric 1:

Increase the mean cumulative GPA (for the entire first academic year) for first year CASP freshmen students so that it exceeds the mean for the 2016-2017 academic year. (Marlene encouraged us to consider setting % target at cum GPA bands (below 2.0, 2.0-2.99, 3.0 and above) for each partner school instead of comparing to previous year cohort) - what do you think? JEFF - I THINK THIS IS A GREAT IDEA. I PUT BELOW IN BOLD AND CAPS THE TARGET PERCENTAGES I WOULD LIKE TO SET AS A GOAL FOR NEXT YEAR. I'D STILL LIKE TO ADD THE MEAN CUMULATIVE GPA, FOR REFERENCE (EVEN IF JUST INTERNAL)

- The Preuss School UCSD mean cumulative GPA - 2.766
- Lincoln High School mean cumulative GPA - 2.841
- Gompers Preparatory Academy cumulative GPA - 2.177
- Other CASP (non-partnership high schools) cumulative GPA - 3.043
- All CASP Freshmen cumulative GPA - 2.777

MEET OR EXCEED 70% OF ALL CASP FIRST-YEAR FRESHMEN TO IN GOOD ACADEMIC STANDING AND ABOVE IN THEIR FIRST ACADEMIC YEAR

MEET OR EXCEED 90% OF ALL CASP FIRST-YEAR TRANSFER TO BE IN GOOD ACADEMIC STANDING AND ABOVE IN THEIR FIRST ACADEMIC YEAR
Result 1:

Metric 2:

In the 2017-2018 academic year the following percentage of students completed 36 or more units within their first academic year at UC San Diego:

- All CASP First-Year Freshmen: 89.13% (Fall - 84.29%, Winter - 90.00%, Spring - 94.96%)
- All CASP First-Year Transfers: 81.97% (Fall - 80.65%, Winter - 83.87%, Spring - 81.97%)

*All percentages include enrolled students ONLY - those who attempted units.*

2018-2019 METRIC:

Increase the percentage of first-year CASP students (freshmen and transfers) completing 36 or more units in their first complete academic year by the following:

- All CASP First-Year Freshmen: 90%≥
- All CASP First-Year Transfers: 90%≥

Result 2:

Metric 3:

Result 3:

Metric 4:

Result 4:

Data Collection/Retrieval:

I plan to collect data through a query setup in the SATS Report Manager tool that pulls from ISIS.

Using Results:

Supplemental Info:

Start:

07/01/2018
End:
06/30/2019
